The Extraordinary Meeting and Championship in Korea,

Dear,

Korea Sports Federation of Firefighters & Rescuers have a deep love and concern for Firefighting and Rescue Sport.

Korea Federation was trying to hold a successful Championship but the Championship was out of our ability.

Therefore Korea federation has decide to the Championship is return to ISFFR.

Express deep regret to give up the Championship in the impending situation.

Respectfully apologize to the ISFFR and its Member States.

It is shortage of interests and understanding for firefighting & rescue sport in Korea unlike firefighting & rescue sport from Eastern Europe including Russia

As you know, Korea federation has preparing with Korean government to hold competition which it's similar to international firefighting & rescue competition

We hope and wish that ISFFR and member states of firefighting & rescue federations would know Korea federation efforts and development of firefighting & rescue in Korea. Since 2009, development of firefighting & rescue sport in Korea was made by only Mr. Jeong's effort and Personal costs

With this as a momentum, Korea federation is going to be cautious and careful more

By. Nodd - Mr om 25.04.2016

We think it's be helpful with benefit for development of firefighting & rescue federation and adoption of Olympic sport game that the championship will be held in Sochi than in Korea

We can't join the upcoming extraordinary conference but we are going to accept the decisions at the extraordinary conference

President Jeong, Jae Kyu

정재규
